Description
Requirement: Video Lecture Streaming
MoSCoW Classification: Must-Have
Kano Classification: Basic (Must-be)
Justification: Video lectures are a primary method of delivering educational content. Learners expect reliable access to course videos as part of the core learning experience.

Develop interactive quizzes and assignments
To Do
Improve Task
Description
Requirement: Interactive Quizzes and Assignments
MoSCoW Classification: Should-Have
Kano Classification: Performance (One-dimensional)
Justification: Quizzes and assignments help learners practise concepts and evaluate their understanding. Better assessment features can improve the learning experience, while basic video-based learning can operate without advanced assessments initially.

Develop progress tracking dashboard
To Do
Improve Task
Description
Requirement: Progress Tracking Dashboard
MoSCoW Classification: Should-Have
Kano Classification: Performance (One-dimensional)
Justification: A dashboard helps learners monitor course completion and understand their learning progress. More accurate and useful progress information can improve learner satisfaction.

Implement peer-to-peer discussion forums
To Do
Improve Task
Description
Requirement: Peer-to-Peer Discussion Forums
MoSCoW Classification: Could-Have
Kano Classification: Excitement (Attractive)
Justification: Discussion forums encourage collaboration and knowledge sharing. They add value to the platform but are not essential for the first release because learners can access courses without them.
Jira Priority: Medium

Implement certificate generation
To Do
Improve Task
Description
Requirement: Certificate Generation
MoSCoW Classification: Could-Have
Kano Classification: Excitement (Attractive)
Justification: Certificates provide recognition of course completion and may motivate learners. They enhance the learning experience but can be introduced after the essential learning features are implemented.
